

Seminar on Viruses in Red Ginger

Researchers and extension agents will discuss the science behind identifying viruses, the results of the statewide survey for virus in red ginger, and lessons learned along the way about the nature of the viruses and their management. A panel of growers will be included and an open forum for discussing the virus issue will occur.

For questions, please contact rgalanti@hawaii.edu

Seminar date: Friday, January 21, 2022 @ 3 p.m.-4:15 p.m.

Seminar location: Online via Zoom
